Washington, DC 20554

Dear The Federal Communications Commission,

Dear FCC Chairman,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

There are many of us who will not be able to afford our cell phone service or our pre-paid long distance cards if you change the rate structure.

Keep the USF Fair!

Sincerely,

Jolene Hornaday 2750 Foster Ave Ann Arbor,

MI 48108

Sincerely,

Jolene Hornaday
